PREPARING FOR WINTER STORMS

The Office of Emergency Management suggests that individuals take the following steps to prepare for severe winter weather.

- **FOOD:** Use canned foods for easy storage and long shelf life. Choose ready-to-eat canned meat, fruits, and vegetables. Keep food fresh by checking dates and replacing it every year.
- **WATER:**
 - Store a three day supply of water for each family member. One gallon per person per day is recommended for drinking, cooking, and washing. Remember to include water for your pets. Write the date on the water containers and replace them every six months.
 - Learn how to remove the water from your hot water heater just in case you need it. Be sure to turn off the gas or electricity to the tank before draining off water for emergency use.
 - Purify water by boiling it for 5 to 10 minutes or by adding drops of household bleach containing 5.25% hypochlorite. The Federal Emergency Management Agency recommends 16 drops of bleach per gallon of water. Water purification tablets or a filter system such as those designed for campers and backpackers also work.
- **OTHER ITEMS:** First aid kit, blankets, battery-powered clock and radio, extra candles, flashlights, extra batteries, matches, money (coins), fire extinguisher, trash bags, medication, copy of prescriptions, cook stove with fuel, duct tape, ax, shovel, pliers, wrench, pry bar, household bleach, hygiene products, and warm set of clothes for each family member.

For a complete sheet of instructions and additional information, please go to the Emergency Management site on the City of Beaverton's webpage located at www.ci.beaverton.or.us.
